## GRIMSBY BLOOD IN SICILY WITH ARMY MEDICAL CORPS

Next Blood Clinic Will be Held in Trinity Hall on Wednesday Afternoon Next — 125 Donations Will be Taken.

### DONORS WANTED

Smithville And Beamsville Are Sending Their Quota of Donors — Dr. J. H. Leeds Will Assist—Will Send Out Notices.

When the Canadians landed in Sicily they lacked little for their immediate care and treatment if wounded in action. Royal Canadian Army Medical Corps units which accompanied the combatants carried with them large supplies of blood plasma from countless donors across the Dominion, according to a cable received at the Red Cross headquarters from Maj. Gen. C. B. Price, overseas commissioner.

Blood donors at the second Grimsby Blood Clinic, on Wednesday afternoon next, will be augmented by men and women from Smithville and Beamsville.

Thirty-one men and women from the southern district will be in attendance and at the present time it is just not known how many donors will be contributed by Beamsville, but it is expected that it will be in the neighbourhood of 40. The balance of the donors, up to 125 will be supplied by Grimsby.

The clinic will be held in Trinity hall which will again be outfitted as a temporary hospital by the Metal Craft Co.

## County Council Hear Resolutions

No Less Than Six Read at Tuesday Morning Session Grantham Asks For Easement For Sewer Project.

Lincoln county council Tuesday morning considered the request of Grantham township for an easement granting permission for the township to route its proposed sewer outlet through the property of the Lincoln County Home. Council heard Township Engineer D. G. Ore outline the proposed plan of the \$70,000 project. The councillors seemed favorable to granting the easement.

A number of resolutions from other county councils were presented for endorsement. Elgin county wanted the federal government to "freeze" farm labor. Wentworth county protested against the amount of sugar allowed for canning purposes, claiming the amount is too small. York county felt that the Wartime Prices and Trade Board should raise the ceiling on farmers' produce in keeping with the cost of production so that the farmer would be in a better position to pay wages equal to the cost of industry in order to get sufficient farm help.

Grey county felt that the National Elective Service should be (Continued on page 6)

## Appreciates Work Of The Red Cross

Stranger to Grimsby, Soldier Overseas Writes About Ride in Grimsby Red Cross Ambulance — Thinks Women Doing Great Work.

Mrs. W. H. Groce, Maple Ave. last week was in receipt of a letter from overseas, which we are passing on to you, as we believe that its contents will be of more than passing interest, especially to the ladies.

No. 17, Canadian Gen. Hosp.,  
June 15, 1943.

Dear Mrs. Groce:

I wrote you a letter a long time ago and up to date I have never received a reply. Don't know whether Hitler caught up with my letter or yours but anyway I am going to try again. As you will see I am at present a patient in hospital. On the mend now, but I was quite ill for some time with acute bronchitis, and have an odd thing to tell you.

Our M.O. phoned to No. 17 Hospital for an ambulance as I was a stretcher case. Imagine my surprise to read a plate on the side of the vehicle saying it was given to

## Water Pumping Is On The Increase

Jumped 70 Per Cent in June Over Last Year — System Being Closely Checked For Leaks.

Despite the fact that water pumped by Grimsby Waterworks System in June this year was 5,061,000 gallons more than the amount pumped in the same month in 1942, power costs only increased \$23.54.

The increased water pumping is to some extent a mystery to the Water Commission. It is definitely known that the water is not being consumed by the citizens, yet there was close to 70 per cent more water pumped in June this year than in June last year. The records show that in June 1942 only 7,115,000 gallons were pumped as against 12,166,000 this year, which is an increased average per day of 168,367. The average per day this year has been 405,533. Biggest day, June 26th, 567,000 gallons. Smallest — 285,000 gals.

In 1942 the Township of North Grimsby consumed 980,000 gallons in June. This year the township took 1,011,000 gallons, an increase of 31,000 gallons.

Power costs in June of 1942 were \$118.11. In May 1943, \$133.93 and in June \$141.65.

Commission have been checking the system and have found at least two bad leaks and there may be more found by the time they cover the whole system. This they believe may be the cause of the increased pumping.

The question of installing an electrically operated indicator on the reservoir, connected with the pump house was discussed. It was estimated that such an arrangement would cost in the neighborhood of \$700.

The sum of \$1,300 was turned over to the town on July 15th. Accounts to the amount of \$475.50 were passed.

## Special Sitting Revising Officer

A special sitting of a Revising Officer, for the Electoral District of Lincoln, will be held in the Council Chambers, Beamsville, on Saturday, July 24th.

This Revising Officer will receive applications to add the names of Extra-Active Service Voters and of consideration of applications from Voters holding appointments to be added to the Voters' List. Appointments as Proxies must be presented for certification by Revising Officer. The sitting in Beamsville to be for the municipalities of Grimsby, Town, North Grimsby Township, Clinton Township and Beamsville Village.

## Bishop of Paton Street

Burton Wilbert Graham

On the occasion of the election and eventual consecration of a member of the hierarchy, irrespective of denomination, there is usually an investiture of the newly consecrated with all the sacred and ancient vestments that are the proper raiment of a Bishop. However, circumstances sometimes arise—as they have in the present situation where one who has aspirations for a new dignity assumes the same without any of the ancient liturgical declares himself as a self-styled Bishop. All things are open to debate and in view of the fact that the subject of this little article has been seen parading around the confines of his diocese with the red skullcap indicative of his new and high office—may be in reality due to the fact that tonsorial growth is rapidly thinning and cold winds blow alike on the skull of the commoner and the bourgeois. However, the former genial host of the Village Inn, now conducting an episcopal visitation of his diocese, within the ramifications of Paton St., wears his dignity well and is accomplishing a great deal of good.

In the above photo, the quasi-ecclesiastical gentleman is seen in characteristic pose, sitting on his portable grandstand, watching a ball game. It's the last of the ninth. The score is tie. The home team is at bat. There are two gone. The visiting pitcher has it two and three on the batter. It's a "crucial" situation. "Red" is just debating whether he will do it the batter strikes out. Kill the umpire, beat up the pitcher or run the batter out of town.

Burton Wilbert Graham and his family came to Grimsby in 1925 and up until last December was Mine Host Extraordinary of The Village Inn. Previous to coming to Grimsby he was for many years connected with the largest wholesale staple and dry goods firm in Canada. For years, in the boom days, he travelled Northern Ontario, not with a "pack" but with real trunks. He was a pal of the famous Sam McIntyre and the late Harry Oakes "away back when".

Has one son and a son-in-law in the R.C.A.F. When not working in the garden or painting some neighbor's house he spends his time getting trimmed up atummy.

## UNUSUAL WEATHER CAUSES LOSS OF 300,000 FRUIT TREES

### Much Salvage In Silent Collector

Old Red Oil Drum at End's Store Continues to Gather a Lot of Scrap Material.

The red painted oil drum that has been doing duty as a silent collector of garbage, or the past year, at the corner of Council and Bull's store has been productive. The past six months another nice bunch of salvage to slip the war effort.

From July first to Dec. 31st last year a great amount of stuff was thrown into this drum which was turned over to the salvage committee. For the first six months of this year the following discarded goods have been gathered in by the Silent Collector.

Six auto tires; a bicycle tire; a inner tubes; 12 rubber boots; 200 lbs. scrap rubber; four rubber coats; four rubber rollers from a washing machine; a quantity of car tires from the U.S.A.; one iron bedstead. If the good work goes on.

Peach And Cherry Trees Are Main Casualties Survey Shows — Injury to Total Peach Tree Population About 15 Per Cent.

### EXCESSIVE COLD

About Five or Six Per Cent of Cherry Trees Have Been Killed — Others Will Die This Fall Unless Precautions Taken.

About 300,000 fruit trees in the Niagara Peninsula have died or are dying because of abnormal weather conditions. Prof. E. F. Palmer, director of the Ontario government's experimental farm at Vineland stated last Saturday.

"The injury to the total peach tree population is about 15 per cent according to our estimates," he said. "This would mean from 250,000 to 300,000 peach trees out of a total peach tree population of two million trees. The only other trees seriously affected are sweet and sour cherries. About five or six per cent of the cherry trees have

## He's Broke Loose In Another Spot

Big Rushton is Back in the Spotlight — Will Place a Team in "C" Division of Ontario Softball Assn.

Last spring after he had successfully piloted his Juvenile Peach Buds to the finals in the Ontario hockey playdowns, the one and only Clarence Henry Rushton declared to the world at large and Grimsbyites in particular that he was through with all kinds of sport. The Independent said "hokey", that he would be back in the sport limelight before the ball season was over. He is.

Last week the Big Barber placed an entry in the intermediate "C" series of the Ontario Softball Association and with the able assistance of Rev. Father Bernard A. O'Donnell will make a strenuous attempt to bring a ball championship to the Fruit Belt.

The local team will be made up of junior players from Smithville, Beamsville and Grimsby. The first practice was held on Tuesday night and Coach O'Donnell believes that he has the makings of a right smart aggregation of horse hide jugglers.

The Grimsby team has drawn a bye in the "C" division and it will be some time in August before the first playdown game will be staged.

Here's another batch of letters from the boys overseas, received the last few days by "Cammy" Millyard.

This last consignment of fags must have reached the boys close to the Queen's Birthday, May 24th, as nearly all the epistles bear that date mark.

I wish to convey through you many thanks for the carton of cigarettes which I just received. They are a very welcome gift as all smokers are rather high when we purchase them.

The cigarette committee is certainly doing a marvelous job and no doubt all the boys appreciate the effort made to keep them in smokes.

### IS ONLY ON LOAN

Local Company Will Operate With Jas. A. Aitchison, as Acting Manager—Efficient Staff Will Carry On As Usual.

Earl J. Marsh, General Manager of Niagara Packers Limited, is leaving this week end for Ottawa, where he will be connected with the Fresh Fruit and Vegetable Division of the Administrator of Natural Products, of the Wartime Prices and Trade Board.

Mr. Marsh is not in any way severing his connection with Niagara Packers, but is being loaned by that firm, at the request of the government to the W.P. & T.B. to handle the Fresh Fruit and Vegetable Division. This means that he will have more or less direct control over all Canadian and American grown fruits and vegetables to go on to the Canadian market

## Two Life Guards Are Doing Duty

One at Foot of Nelles Road And One at Grimsby Beach — Youngsters Prefer Nelles Road Swimming Spot.

Attention is drawn to the fact, that while the Lions Club have removed the bathing houses from the foot of Nelles Road, to Grimsby Beach, bathing is still continuing at the Nelles Road beach.

Town youngsters much prefer the Nelles beach and as a consequence the Lions Club Life Guard, Miss Virginia Hewson is on duty at this beach every afternoon and evening.

There is also a lady life guard at Grimsby Beach and the two guards alternate between the two swimming spots. Lions Club are paying a portion of the cost of the Grimsby Beach guard.

CHARLES TODD DALEY—  
CONSERVATIVE CANDIDATE

I believe that the Conservative party of Lincoln made a ten-strike last week when they nominated Charles Todd Daley, five times Mayor of the City of St. Catharines, as their candidate for the Ontario election.

On the platform Mr. Daley shaped up as a right, smart, level-headed, cool businessman. He has a nice personality, good appearance and while not an orator of the Sir Wilfrid Laurier type, he is a good platform speaker. A speaker, that I believe would be more effective in debate or cross-fire on the floor of the House, than from a platform.

As to his business acumen, his record in St. Catharines City Council speaks for itself. When he became Mayor in 1938 the financial position of the City was very similar to Grimsby's position at that time. Plenty of debenture debt, other debt, and much cleaning to be done.

During the past five years Todd Daley has done for the City of St. Catharines just exactly what Mayor Johnson has done for Grimsby. Put it on its feet. Today St. Catharines is in an enviable position, financially, among the smaller cities of the Dominion, just as Grimsby is the envy of all small towns of the country.

An example of this is found in the fact that last week the City offered for sale \$40,092 worth of debentures, at three per cent interest. The debentures were sold at a premium of \$1,054, or for \$41,146. This reduced the interest charges down to two and one-half per cent.

When debentures can be sold at that rate, particularly in war time, then the City must be in excellent financial shape and must be well governed.

Todd Daley is the man that put St. Catharines in that healthy condition and it stands to reason that he should be an ideal man to look after the interests of the rate-payers of Lincoln county in the provincial house. We have had too few men of the type of Todd Daley in Toronto in the past 15 years, of any political stripe.

Now that we have the chance to place a real man there to look after our interests, DO NOT LET US FAIL.

WATERING TROUGHS

News items tell us that country towns are fixing up the old granite, metal, and wooden watering troughs.

Less than half a century ago, a watering trough was taken for granted at the edge of the village common, or in front of the general store.

The work teams and the driving horses knew that they would stop at the trough in hot weather. Forty years ago many towns began to feel the urge toward modernity and installed metal troughs. They were made of various shapes, some with little statues and intricate embellishments.

The genuine, country watering trough was made of heavy oak planks. It was dark and stained with age; thick, green moss covered the outside. Inside, around the edges and at the bottom there were waving aquatic

growths. But the water was cold, pure, and clear.

On a hot day the horses blew and snorted with pleasure as they plunged their heads deeply into it. Most of the time there was a mud puddle before the trough, but this was good for the horses' hooves in midsummer.

Occasionally small boys put minnows and frogs in the trough, and even turtles were known to live contentedly there. It's still a solid world while men are planning stratospheric liners and rehabilitating watering troughs.

PITCHING HAY

The New York Sun quotes a despatch from Switzerland, which reports that the prefect of Strasbourg has ordered all resident officials to assist in hay-making. It goes on to say that Army officers, among them several colonels, have complied. This may be so, but to anybody who really knows much about hay-pitching it sounds phony.

It is possible to conceive of a colonel—fortified with palm-leaf fan and a seidel of beer—sitting under a shade tree and watching a buck private at this most arduous of agricultural tasks, but any colonel who is a colonel at heart would surely forfeit his insignia before doing it himself.

Pitching hay is no job for a novice. The fields are sweet and fragrant in the morning, but by the time the dew is off and fallen grass can safely be harvested, sweetness and fragrance will have vanished.

The first forkful seems to weigh about ten pounds; the second about thirty, the third about ninety, the fourth about a ton. By 10 o'clock you have sweat in your eyes, hayseed down your back, blister on your hands.

Tepid water from a keg is as nectar to your throat. By noon you have lost all further interest in agriculture. At 1 o'clock it would take an order from no person of less than a colonel's authority to get you back on the job. Colonels ordering themselves back? Let Strasbourg tell that to the Marines!

GOOD NEIGHBOURS

People are often told that they should be good neighbours, and behave in a neighbourly manner. What constitutes a good neighbour?

In the old fashioned town of many years ago, the good neighbour was apt to be one who helped you when you were sick or in bed, and who was full of kind attentions.

While kindness is still valued, the quality that people seem to appreciate most now is the disposition to keep one's home place in nice condition, and make it a credit and ornament to the street.

A person may be very kind hearted, but if he lets his place run down and look disorderly, the people will not be so enthusiastic about him.

When he fixes it up and repairs and cleans up disorder, and when he develops its beauty as spring and summer come, then the people smile when they see him, and are mighty glad that he lives on their street.

A GENTLE ART

The hoe is a humble instrument of the husbandman. When it comes from the store its blade is shiny and the handle bright, clean wood. In a few brief days it becomes weather-worn and friendly and takes its place with the rakes, shovels, forks, and turf-edger in a corner of the shed or garage.

Many a man feels an affection for his tools, and to him who knows the joy of hoeing, a good hoe holds an important place in the scheme of things.

Hoeing is a gentle art—provided, of course, the soil is in reasonably good condition and the weeds not too large nor too numerous. But then, he who practices the art sees to it that the conditions are satisfactory.

One can think and plan, as he hoes. It is not unduly vigorous exercise if one keeps his instrument's edge sharp and the blade free from rust. There's a sense of rhythmic relaxation as one hitches slowly along between the rows. There's companionship with growing things, with birds, and the white clouds sailing across the blue sea above.

As one stirs the soil's surface and leaves its crumbly, soft, and level he feels a kinship with the growing life about him. Hoeing well is a gentle art and a satisfying one. And always one knows the art will be practiced again for weeds will grow and the earth's crust will need softening.

SHAKESPEARE

WROTE ABOUT IT

The power of great suggestion is capable of achieving great things, sometimes in a subtle way, sometimes in a more direct approach. The following line a more direct approach.

ONTARIO SUBSIDY  
ON WESTERN FEED GRAIN

ONTARIO farmers will need at least 75,000,000 bushels of Western grain to feed the huge livestock and poultry population through the 1943-44 feeding season.

To prevent railway congestion next winter, to compensate for interest on investment, and to encourage immediate purchase and storage of Western grain on Ontario farms, the Ontario Department of Agriculture will pay the following subsidy on confirmed orders for immediate delivery of 5 tons or more, completed between May 15 and December 31, 1943:

May 15-August 31.....	\$1.80 per ton
September .....	1.20 per ton
October .....	.90 per ton
November-December .....	.60 per ton

Purchase Western Grains Now, and Ensure a Plentiful Supply for Next Winter!

W. R. REEK, DEPUTY MINISTER

nice combining of the two, says The Printed Word.

An Ontario bachelor-farmer was marrying a girl from back in the hills whose family members were noted for their out-door vigor, lack of convention, and avoidance of work.

"You're marrying trouble tomorrow along with that girl," a friend warned. "They're a wild outfit, and lazy. You'll never manage to tame her. It's not too late to change your mind."

The bachelor thought it over. "I'm getting married," he decided. "I'll figure some way to handle her."

Next day he purchased from a neighbor a hopelessly balky horse, cheap, which he drove the twelve miles to his wedding. En route he detoured bridges which the horse refused to cross. At times he was forced to lead him.

The ceremony over, he started for home that evening, with his bride. Half way, the horse came to a bridge and balked. The bridegroom spoke to it. Three times, in a calm and modulated voice, he ordered it to proceed. The horse just stood.

Without further word the man got down, unhitched, put the harness in the back of the buggy, led the horse off into the woods, took a pistol from his pocket and shot the animal.

He came back to his bride who looked considerably startled. "One thing I got no

time for is anything that don't do what it's told," he remarked. "Better get out back there and push."

She did, briskly.

A REAL PATRIOT

A Toronto daily recently carried this classified advertisement:

"Wanted—parlor maid, four in family, three maids kept, apply to Employment and Selective Service. Refer to File —."

No doubt this super-patriot employer is one of those individuals who mounts the public platform and calls on his fellow citizens to make a greater effort to win the war.

You can almost hear him saying: "we must make more sacrifices, we must give till it hurts, we must do with less, we must cut out all the frills and luxuries until Victory is won."

Proud of his effort he probably had a liveried chauffeur drive him home and then donned his dress clothes to help the gardener with the victory garden, and then as the shadows faded in the western sky, he retired with a feeling of satisfaction that there is no labor shortage in Canada.

And don't you see men, and women too, of this sort—those who talk about the terrible war and then crowd it out with their own pleasures.

Now is the time for all men who were born equal to show what they're equal to.

## Mother's Little Helper

When you find yourself facing one of those extra busy days with a whole slew of little jobs that must be got through before the day ends, here's a solution:

Take a pencil and a pad and make a list of them. Then fit them in between your routine jobs, dishwashing, bedmaking, cleaning etc. Cross each one off as it is completed, and you will be amazed at the headway you make.

This is an excellent plan for the muddle-minded woman (or man) to follow. It keeps them toing the line, and is a great incentive to getting things done methodically and on time.

Just a scratch pad and a pencil. If it's your lucky day you can get the two for five cents, and the investment pays huge profits.

liven our enthusiasm for the coming events of a second front. For your kind thought and generous gift, we give sincere thanks.

Gratefully,  
G. Taylor-Munro.

Once again I received cigarettes from you, thereby thanking you for the work you are doing for us over here.

Your truly,  
Mac.

Once again my deepest thanks for your gift of cigarettes. They sure are swell!

Sincerely,  
S. E. Martin.

Many thanks for the cigarettes. They are appreciated very much over here. Your doing a grand job. Keep it up.

Sgt. Roy Hurst.

Once again—Thanks a million. I have just received your last shipment of smokes. Need I say how welcome they are.

It is heartening to know that the folks 'back home' still remember us and remind us of that fact in such a practical way.

I know that all Grimsby boys will always remember the comfort your gifts of cigarettes are giving them.

In appreciation, sincerely yours,  
A. Mahady.

The cigarettes were greatly appreciated. Many thanks.

Yours sincerely,

Once again I am on the receiving end of a package of your cigarettes, for which I want to thank you very much.

I am now up in the northern part of England on a course, these courses sure toughen a fellow up. I don't know whether they are trying to make a commando out of me or a blacksmith. I am in an English army camp and when they say "Right Turn," in this place that is exactly what they mean.

Thinking you again for the cigarettes, I am, as ever,  
Norm. Johnson.

Just a line to express my thanks for the smokes which I have just received from you. They sure come in handy these days.

Gnr. A. D. Twonock.

Many thanks for the 300 Buckingham cigarettes of which I received this evening and please extend my thanks to everyone that made it possible. I greatly appreciate your kindness and I'm sure I can't put it in words how pleased and thankful I am to receive them, my only hope is that we all can pull together and finish this miserable war to final victory in 1943, and I'm sure we can, don't you all agree over there?

The Air Force is now paying the way for us to make the final drive and no doubt Hitler is shaking in his shoes and my guess is that Italy is next thing to folding up.

I'm still kept busy building Barracks, Depots and other buildings, too numerous to mention, so of course we're kept out of mischief.

We have had grand weather for the last few months although today being the 24th of May it had to rain all day, of course we're quite used to that now.

I must close now thanking you very much for your kindness.

I remain, yours truly,  
Alex Neale.

Just a few lines to let you know that I received my second carton of cigarettes from the Chamber of Commerce on Monday, and to tell you how much I appreciate them.

As you probably know, smokes are rather scarce over here, (and darn expensive to boot), so you can imagine how pleased the boys in this country are when they receive cigarettes from home.

The Grimsby Chamber of Commerce are doing a swell job, and we boys over here are the ones that realize and appreciate it. So keep up the good work, and once again,

Thanks a lot,  
Cpl. Johnny Farrell.

### UNUSUAL WEATHER

been casualties. This might mean 6,000 casualties.

Prof. Palmer explained that while many trees have already died this year, there are many healthy-looking trees which will die by the end of the season or will be of no further commercial value.

"It is highly probable that we should have to make an upward revision in our figures," he said. "The damage to the trees at trunk level may reach 20 per cent."

Prof. Palmer said that a bulletin

had been sent on Monday from his office to farmers in this district receiving the spray calendar. This news bulletin had explained that the mortality among fruit trees was not due so much to the wet spring as to the excessive wet weather last fall, the very cold weather early in the winter, and the late growing season last year.

The excessive cold combined with the trees' "wet feet" killed the bark on the trunk. Many trees with this injury have leafed out and seem to be healthy so far this season, but experimental farm officials expect many of them to suffer a relapse and die before the end of this season.

Present weather conditions are similar to those last year at this time, and the experimental farm has sent out advice to fruit growers to help them in preventing a recurrence of this year's serious tree mortality. Growing conditions now are good, and the trees continue to grow late into the season, instead of stopping their growth at

the normal time. This habit of continuing to grow late into the season will make the trees liable to injury again late this fall unless the department's advice on cultivation, cover crops, etc., is carried out, said Prof. Palmer.

A Hamilton despatch on Friday announced that nursery stock in this district is so short that it is unlikely that sufficient young trees will be available to replace all those killed this year. Ellis Cornman, M.P. for Wentworth, announced that the federal government might consider removing the duty on American nursery stock to meet the demands of Niagara District fruit growers.

### SAVE FEATHERS, FARMERS ASKED

Poultry producers throughout the Dominion are being asked by the Prices Board to save all the feathers and down from chickens, turkeys, geese and ducks in order to add to available supplies. It is estimated that 200,000 lbs. of

feathers and down are needed by the armed forces and in construction camps for use in bedding, pillows, etc. It is thus ordered that if a poultry producer gets more than 25 pounds of feathers from his poultry, he is not to destroy it without permission from the pro-

per Board authority. All of it must be saved, because it is badly needed.

Of the 700 people making tank landing-craft at a Scottish shipyard, two-thirds are women.

# DREW 22-POINT PROGRAM BACKED BY HOUSE RECORDS

## The Press Endorses Progressive Conservative Platform

### DREW PLANS A DYNAMIC ONTARIO

(Steele County Reporter, K'sville, Ont.)

Social security, full employment, and economic planning are prominent topics of the day. George Drew's approach to the discussions forms a stimulating contribution to Ontario's planning problem, according to George Drew, is not a static one, but is dynamic in character, designed to develop to the utmost our Nature-given potentialities; his view as first may sound like old-line thinking, but one must admit that his approach is more than an echo of Laurier and Macdonald. He adds something new to our planning for the future must be dynamic.

### DREW APPEALS TO THE BEST IN ONTARIO

(Ottawa Journal)

For the Progressive Conservative Programme offered the people of Ontario by George Drew, one thing must be said at the outset: it is that here at least is a pronouncement by a public man who reveals understanding of the gravity, and the faith and hope, of our times. He (Mr. Drew) offers us a programme within the framework of freedom; a programme that must appeal to Ontario's tradition of individual independence and self-reliance. He would have governments control and superintendence for the citizen; he would not subject men to the deadening hand of bureaucracy, nor plan us all into puppets under drill sergeants of the state. That he leaves as it should be left to the Socialists of the C.C.F. No Ontario leader in years has advanced a more progressive, a more humane, or a more hopeful programme.

### DREW'S GREAT SOCIAL DOCUMENT

(Toronto Globe and Mail)

Progressive Conservative Leader, George Drew has raised the present campaign far above the picaresque things of the little politician. By it all the carping, all the sneers, the invective and the petty slander of his critics were swept aside. In that address George Drew has given the people of Ontario a great document, the finest social document in Ontario's history; one which should be read, studied and thought upon by every citizen. Point by point it is a massive thing. Even in the skeletonized form it is a dynamic and constructive programme. Almost every point offers a practical approach to fundamental problems. It is essentially a programme of work, a series of well integrated steps calling for the creative use of all our resources and all our skill. George Drew is publicly pledged to implement them with the guidance and assistance of the chosen representatives of each group directly concerned. If some concrete evidence of the genuineness of the Party were needed, there is the record. Many of the records of the points Mr. Drew itemized in his address are not new. He has offered them to the Legislature of the Province and as Opposition Leader offered to assist the Government in carrying them out.

### TO THE RESCUE OF REAL ESTATE

(Windsor Star)

Mr. Drew proposes that the Ontario Government, if he is called upon to form it, will assume at least fifty percent of the school taxes now charged against real estate. This would prove a relief to all taxpayers.

## Constructive Proposals In Public Interest

Speaking over the C.B.C. network Friday night, July 16th, Leslie M. Frost, M.P. for Victoria and Haliburton, one of the outstanding Progressive Conservative members in the Ontario Legislature, emphasized the fact that the 22-point program recently announced by George Drew, Leader of the Progressive Conservative Party, was the product of extended consultation with his followers; and that it was unanimously adopted at a largely attended meeting of party candidates and officials from all over Ontario held at the Royal York Hotel on Saturday, July 17th.

Not only this, said Mr. Frost, the platform given out after that meeting was the natural sequence and outcome of constructive proposals made in the Legislature by Mr. Drew and his associates. Ever since the war began the Opposition, led by Mr. Drew, has at each session: it forward a series of resolutions conceived in the public interest. These proposals, added the member for Victoria and Haliburton, have been either voted down at the instance of the Liberal Government or declared out of order by a Liberal Speaker.

On February 15th, 1941, the Opposition, submitted a resolution, calling upon the Government to move for a conference of representatives of the Dominion and of all the provinces for the following purposes:

- To secure the greatest war and post-war efforts.
- To meet emergency created by the war.
- To secure adequate prices for agricultural products.
- To protect the established rights of labor.

And to devise plans for the rehabilitation of the members of our armed forces and for the re-employment of civilians who may be thrown out of work by post-war industrial readjustment; and to consider such other questions relating to the welfare and security of the people as may be deemed advisable.

Voted down by the Liberals including Mr. Nixon.

### TOWN AND COUNTRY PLANNING

The advisability of planning beforehand for post-war recovery was again pressed upon the House by the Opposition in a resolution which read:

That development of the public undertakings throughout the province, in the opinion of this Legislature, call for the immediate creation of an Ontario Town and Country Planning Commission, with authority to recommend and supervise plans for the reconstruction, relocation, and development of rural and urban areas.

This and similar Opposition proposals were voted down by the Liberals, including Mr. Nixon.

### ECONOMY ORDER

In the same session the Opposition pressed by the need for economy, the administration of the province, brought a resolution:

That the estimates for the current year be referred back to the House, with instructions to derive a total amount of supply by \$20,000,000. This was turned down by the Liberals, including Mr. Nixon.

### FOREST RESOURCES

Later on Mr. Drew's followers offered a resolution, demanding that the administration and control of the provincial forest resources be placed under the direction of a public body to be known as the Ontario Forest Resources Commission, after the manner of the Ontario Hydro Electric Power Commission.

Rejected by the Liberals, including Mr. Nixon.

### RECONSTRUCTION PLANS

In the late session of the Legislature (1943) the Opposition kept up the pressure for action by submitting the resolution:

That the Government should undertake (with special reference to the constitutional relationships between the Dominion and Provincial Governments) a survey of existing social relations here and elsewhere, and with due regard to the probable course of events after the war, make recommendations for a unit of workable plan which will secure a proper standard of work, wages, proper education, and living standards, for all our people—with special reference to the re-establishment of the men

and women in our fighting forces and the war industries.

The Liberals, including Mr. Nixon, killed this resolution.

### HELP FOR AGRICULTURE

The Opposition renewed the attack with this further resolution:

The members of this Legislature express their regret that the Government has failed to meet the critical needs of our agricultural producers; and they insist that the Government immediately take whatever steps are necessary to assure stability of prices, and an adequate supply of manpower and machinery for the rapidly increasing demands of war production.

This was a move on behalf of the farmers of Ontario which the Liberals were afraid to veto directly. The Liberal Government, including Mr. Nixon, got around this difficulty by adopting a resolution praising the Government for the admirable work done by the province in securing manpower, prices and machinery for the agricultural industry.

### UNIFORM RATE FOR HYDRO

The next resolution submitted by the Opposition asserted that the Hydro Electric resources of the Province belonged to all the people, and that it is therefore desirable that the Hydro Electric Power Commission Act be amended immediately to equalize rates for electric energy and remove the present service charge in rural areas.

### TO MEET FUEL SHORTAGE

An Opposition resolution dealing with the current fuel shortage read:

In the opinion of this House a subcommittee should be appointed to inquire into the fuel situation and to recommend to the government measures to assure the greatest possible supply of fuel for the coming winter.

Despite the sufferings of last winter and the prospective sufferings of the coming winter on the part of the people, the Liberal Government of the day, including Mr. Nixon, unanimously voted down this resolution.

### FINANCIAL PROTECTION FOR SOLDIERS

The next Resolution, introduced by the Opposition at the recent session of the House, proposed that all members of the Canadian Armed Forces from Ontario should be given effective legal protection against the normal economic consequences of their service; and that all those, whose ability to meet their financial obligations has been materially reduced by such service, should be sheltered against the forfeiture of installment contracts, cancellation of life insurance policies up to \$10,000.00, and judgments or other legal proceedings for debts incurred before entering military service.

The resolution stated that this protection should be extended to the express condition that those able to pay should not be encouraged to evade their obligations. The deferment rather than the cancellation of obligations was suggested so that justice might be assured.

Instead of voting down this resolution the Liberal Attorney-General stated that this proposal had been taken up with the Federal Government. But up to the present time no action has been taken.

### OLD AGE PENSIONS

A further resolution introduced by the Opposition read:

Resolved that in the opinion of this House the Government should take immediate steps to adjust the old-age pension payment in accordance with the present cost of living.

In supporting this resolution Mr. Drew and others contended that old age pension payments should be raised immediately by at least \$5.00 a month and that the practice should be abandoned of compelling old people with little money to give up these

homes before they can collect their scanty pensions.

This reasonable proposal of the Opposition was ruled out of order by the Speaker, Mr. James Clarke, who now favors union of Canada with the United States. On another occasion in the late session the Speaker ruled out of order a proposal for the celebration of Empire Day. Mr. Nixon is not on record as protesting against the Liberal Speaker's rulings.

### LABOUR AND "TEAM-PLAY"

As far back as 1941 George Drew placed before the Legislature a proposal calling upon the Minister of Labour to arrange a conference to be known as the Ontario Industrial Production Conference to be attended by representatives of Labour Unions, Employers and the public. The purpose of the Conference was to be the securing of maximum industrial production, with effective protection for the workers.

The Liberal Government, including Mr. Nixon, have taken no action up to the present time, in regard to this proposal.

In keeping with its record in the Legislature, on the public platform and in the press, ever since 1939, the Progressive Conservative Party, as already indicated is pledged to carry out the program outlined in the 22 points of its platform.

The only means of making sure that these forward looking commitments will be put into forthright practice is to vote George Drew and the Progressive Conservative Party into Office on August 4th.

The issue is in the hands of the electors who are under a patriotic and moral obligation to do their thing!

(1) See that your name is on the voters' list.  
(2) Get out and work for the Progressive Conservative Party and its platform, and a greater and more prosperous Ontario.  
(3) Tell your friends and acquaintances and get them to the polls on the right side.

## Women's Institute

The committee on agriculture was in charge of the August meeting of Grimsby Women's Institute, which met at the home of Mrs. Wm. Sangster, Elizabeth Street, on Tuesday evening.

Mrs. Andrew Stevenson led the discussion on the proper methods of planting Gladiolus bulb, treating for thrips, storage of bulbs in winter, and care of the plants while growing so as to obtain the best results.

At their fall meetings members will bring seeds and slips for exchange.

The Institute urges upon all its members the necessity for informing themselves thoroughly upon the issues of the coming election by listening to radio broadcasts, reading election articles in their newspapers, and by discussion, so they may be ready to cast an intelligent and honest vote on August 4th.

The next regular meeting of the Institute will be held at the home of Mrs. Roy St. John, Robinson St. South.

### WELLS—THEAL

In Trinity United Church, Grimsby, on Saturday afternoon, at 4 o'clock, the wedding was solemnized, of Betty Elleen, daughter of Mr. and Mrs. James I. Theal, Grimsby, to L.A.C. William Daniel Wells, Guelph, son of Mr. and Mrs. Charles W. Wells, Palmerston. Rev. W. J. Watt conducted the marriage ceremony.

Mr. Kenneth Baxter played the wedding music, and Mrs. J. S. Shields sang "Still as the Night", and "Through the Years". The church was decorated with baskets and tall standards of pink roses, delphinium and Shasta daisies.

The bride was given in marriage by her father. She wore a white gown, cut on princess lines, with white lace bodice and full point d'esprit skirt. Her three-quarter length veil of tulle was held in place with white flowers, and she carried a bouquet of white gladiolus, bouvardia, and blue delphiniums.

Her attendant, Miss Jan Walters, of Toronto, wore heavenly blue point d'esprit, with shoulder veil of tulle, held with pink flowers, matching her bouquet of Rapture roses and sweet peas.

The best man was William Harley of Welland, cousin of the groom.

Mr. Lloyd Theal, Grimsby cousin of the bride, and Mr. John Wells, Palmerston, brother of the groom, were ushers.

A reception was held at the home of the bride, for 60 guests, the bride's mother receiving in a two piece black and white suit, with white hat, and white accessories and corsage of white carnations. She was assisted by the mother of the groom, who wore a dress of navy sheer, with navy and white hat and accessories, and corsage of pink sweet peas and sweet-heart roses.

The couple left on a wedding trip to Manitoulin Island, the bride wearing a navy sheer two-piece dress with white hat and white accessories. On their return they will reside in Guelph.

While fishing off the pump house pier one night last week Mike Sweet thought that he had hooked a whale. After a 10 minute battle he finally landed the monster and it proved to be an eel measuring 32 inches in length and seven inches in diameter and weighing three pounds. This is about as big an eel as has ever been pulled out of the lake at this point.

Thieves were busy in the Beamsville district Sunday night. A car, owned by Pte. Murray Van Every, was stolen from the garage at the home of his parents, and later found by Provincial Constable Hart at Grimsby Beach. A safe was carted away from the office of the Niagara Packers near the C.N.R. station and found later Monday morning on a back country road minus its contents, which included cancelled checks and a gasoline ration book. The section foreman's toolshed was broken into and tools taken to open the safe. These were also recovered with the safe.

Two bands of the Canadian Women's Army Corps, a brass band from Calgary numbering 28, and a pipe band from Ottawa in which there are 14, will play at different points in the Niagara District the latter part of this month. National Defence Headquarters, Ottawa, has announced. They are believed to be the only all-women brass band on active service in the British Empire.

Taylor's Autotel, at the top of the Thirty Hill, the nicest spot between Niagara Falls and Toronto, to dine and dance is being opened again to the public. This fine countryside restaurant, with its excellent cuisine has been closed to the public since last fall, but re-opens again on Friday night, July 23rd. Fish, steak and chicken dinners will be featured. The deluxe cabins are also being opened for tourists.

Burlington's town council went on record at its regular meeting on Friday evening last, as favoring the rebate to municipalities by the provincial government of a proportion of the gasoline tax collected in ratio to the gallonage sold in a municipality. A resolution to this effect was passed by the council, and it will be forwarded to the provincial government, as well as all municipalities for their endorsement.

Officials of the St. Catharines and Lincoln County Game and Fish Protective Association announced Tuesday that 1,800 brown trout were released in the Effingham and St. John streams last week. The fish were brought here by men of the Ontario Department of Game and Fish. The trout were all of good size and once that they have become acclimatized in their new habitat, they should prove keen game for the fishermen of the district.

## Action To Stem Child Delinquency

One of The Major Steps is The Work Being Done by Lincoln Children's Aid Society.

One of the major steps, a counteract and stem juvenile delinquency is the work being done by the Children's Aid Society of St. Catharines and Lincoln County toward children who have shown certain signs of becoming delinquent.

A survey of the work shows that at present the society is actively engaged in assisting youngsters from 8 to 15 years of age. Seven boys and one girl are now under the supervision of the Society, which is taking steps to give them a training designed to foster the good habits of proper citizenship.

Most of those admitted to the care of the society are the products of broken homes, where, through one cause or another, the child is left to make his own way. As a consequence of this condition, these children soon wander into bad habits, petty thievery and companionship ill-suited to their proper rearing.

All of the children in this category are made wards of the Society. After studying the individual's case, a board meeting decides the right cure, always, of course, in the interests of the child. While the work of the Society received

little notoriety, it has been instrumental in saving many children from growing into criminal ways of conduct.

There are some men blind to the little beauties of life, says a writer. But most men will always risk one eye at a little beauty.

In Great Britain, 85,000 women have taken the place of men on the railways, and are working as porters, ticket collectors, carriage cleaners, drivers, labourers, signal and telegraph operators.

## Fourth Compulsory Employment Transfer Order

A Direction to Specified Employers  
and Employees

This Order applies to any young man who is 16, 17 or 18 years of age, and who is working at any one of the employments specified in this notice. It is also directed to the present employers of these young men.

### A. Objective:

The Order provides for the transfer of the young men affected, to work which is of more importance to Canada's war effort. Transfers will be made after taking into account the health and domestic circumstances of these young men.

### B. YOUNG MEN WHO ARE AFFECTED:

Every young man who is in any one of the employments specified, who has reached his 16th birthday but has not reached his 19th birthday, is covered by this Order.

### C. EMPLOYMENTS SPECIFIED IN THE ORDER:

This Order applies to the young men described above if now employed in any of these occupations:

(1) Any occupation in or associated with the following: (a) barber shops and beauty parlours; (b) distilling alcohol for beverage; (c) dyeing, cleaning and pressing, laundries, guide service, shoe shining; (d) entertainment, including but not restricted to theatres, film agencies, motion picture companies, clubs, bowling alleys, pool rooms; (e) operation of ice cream parlours and soda fountains; (f) manufacture of fashions, plumes and artificial flowers, chewing gum, wine, lace goods, greeting cards, jewelry; (g) retail stores; (h) factory production of stationary and art goods; (i) retail and wholesale florists; (j) retail sale of confectionery, candy, tobacco, books, stationery, news; (k) retail sale of motor vehicles or accessories; (l) retail sale of sporting goods or musical instruments; (m) service stations (gasoline-filling stations); (n) taverns, liquor, wine and beer stores.

(2) Bus boy; chairman and cleaner; custom furrier; dancing teacher; dish washer; domestic servant; doorman and starter; elevator operator; greens keeper; grounds keeper; hotel bell boy; porter (other than in railway train service); private chauffeur; taxi driver; waiter.

### D. How the Order affects Young Men still attending School:

Young men in the age groups mentioned, now employed, will not be interfered with insofar as returning to school at the opening of the school session in the Autumn is concerned; but young men in the age classes covered, who are now working during their summer vacation, must comply with this Compulsory Order.

### E. Procedure to be followed:

All men as defined above must report to an Employment and Selective Service Office not later than July 24th, 1943. Men resident outside a city or town having an Employment and Selective Service Office, who are too far removed to call personally at such an Office, may write to the nearest office in the first instance, and await further directions.

### F. Appeals:

If directed to transfer to employment subsequent to interview, a man may, if he objects, enter appeal with a Court of Referees, within 7 days of receiving such direction.

### G. Penalties:

Penalties are provided for employers who retain, or take into their employ, after July 24th, 1943, any man covered by this Order except under special permit. Also, penalties are provided for failure of an employee covered by the Order, to register or follow a subsequent direction to employment.

### H. Authority:

This Order is issued under authority conferred on the Minister of Labour by National Selective Service Civilian Population (P.C. 246 of January 19th, 1943, and amending Orders in Council).

Employer or employees uncertain of the application of this Order in a particular case are advised to communicate immediately with the nearest Employment and Selective Service Office.

Attention is directed to the fact that the Third Compulsory Order, which contains a list of occupations different from the above, also requires certain young men 16, 17 and 18 years of age to report to National Selective Service.

## Continuations From Page One

### NIAGARA PACKERS

The local firm will continue to operate under Jas. Aitchison as acting manager and the very efficient staff of the company.

Several weeks ago Mr. Marsh was approached by government officials to take over this work, but declined until such time as he had discussed the matter with his own officials and a suitable and feasible plan of handling the affairs of the Niagara Packers had been arranged.

Considered by growers, dealers and wholesalers throughout the province as one of the cleverest fruit and vegetable men in the country, we believe that W.P. & T.B. officials have shown wisdom in securing the services of Mr. Marsh for this very important position.

### GRIMSBY BLOOD

Dr. J. H. Leeds of Smithville will assist Drs. Rogers and McIntyre in the work and the nurses will again be under the supervision of Miss Marion Pettit, while the cook kitchen will be in charge of the girls from the White Elephant Shop.

The clinic will be open from 1.15 p.m. until four p.m. Notices will be sent out to all the local donors this week informing them what time their presence will be required at the hall.

As a donor is only allowed to give blood once every three months, the Grimsby donors who contributed last month and the month before are prohibited from so doing next week, therefore Grimsby is still shy some donors. If you wish to help a worthy cause and donate your blood, contact Miss Maisie Cullingford at Hewson and Son basket factory, Erwin Phelps, K.C. Baxter, Harold Metchett or R. C. Bourne.

Polling Sub-division No. 96, that portion lying between the line between concessions two and three on the north, the Township of South Grimsby on the south, the Township of Clinton on the east and Lot Four on the mountain on the west, at Curtis Miller's residence, Thirty Road.

Polling Sub-division No. 97, that portion between the Town of Grimsby on the north, the Township of South Grimsby on the south, the line between Lots four and five on the east and the line between Lots 13 and 14 on the west, at Alway Stone House, Ridge Road West.

### COUNTY COUNCIL

extended with appointments of persons who know intimately the problems of agriculture and the management of manufacturing industries, so they could work in close co-operation with the Department of National Defence visit every farm, office, and factory to equalize the distribution of labor. They also asked that grain be brought from the mill to feed bacon hogs, since the hog feeding in Ontario is late. A hog grain should be brought freight-free from Port Arthur or Port William, and should be paid for at prices existing last October 15, they urged.

Grey recommended that each rural municipal council pass a by-law immediately to raise one-fifth of a mill to finance the Federation of Agriculture. This move was instituted some time ago by the Lincoln county council, and has since received the commendation of the provincial government.

Carleton county asked that the minister of agriculture raise the price of cheese from 20 to 22 cents plus bonus.

the Red Cross by the residents of Grimsby, Ontario. And a nice riding car I never was in.

Realizing you are active in Red Cross work I thought you would be interested in what struck me as being an unusual occurrence. While I am not a Grimsby boy I worked around there so much it was like home to me.

No doubt by times you have heard some criticism of the Red

Cross so I will tell you of my experiences with these people. I asked for a pair of socks and a pull over sweater and within an hour I had them both. I offered to pay for them but was told, No. The women of Canada send these articles over here for the use and comfort of the troops and I for one appreciate the efforts of your good folk back home.

6. Have you any uncancelled orders for Class A fuel for these premises with any other coal dealer? (Answer YES or NO).

7. Do you agree to take 25% of your coal fuel requirements for the year ending June 1, 1944 in high volatile bituminous coal? (Answer YES or NO).

I certify that the above statements are true and undertake not to take delivery of more Class A fuel than the quantity authorized by the Coal Controller's Order No. Coal 2.

Dated \_\_\_\_\_ Signature of Consumer \_\_\_\_\_

If you did not use coal during the year ending June 1, 1943, you must give complete information about your heating equipment and size of premises to enable your coal dealer to estimate your need.

Read these details carefully . . .

1. This Order applies to all persons planning to purchase Class A fuels, namely, anthracite (hard) coal, low volatile bituminous coal, briquettes or coke, for heating any premises in Ontario or Quebec.
2. Forms will be available from all dealers in the near future. After completion the form must be left with the dealer from whom you are planning to purchase.
3. No delivery of coal will be made to any person who has not sent in a properly completed form, even if the coal was ordered or paid for prior to this regulation.

### EXEMPTIONS — This Order does not apply to:—

- A. Consumers who use only high volatile bituminous coal.
- B. Consumers of anthracite coal in the sizes known as buck-wheat or smaller; or of low volatile bituminous screenings or run-of-mine coal.
- C. Consumers of coal and coke used in the business of baking food products.
- D. Consumers of foundry coke.

# HAINES RESIGNED To Protect Your Interests! It's To Your Interest To Re-Elect Him

A. J. (Archle) HAINES

**A** RCHIE HAINES has demonstrated forcibly that as a Legislature member he represents the public opinion of Lincoln County. He resigned his seat when the opinion of the citizens of Lincoln were at odds with the then premier, Mr. Hepburn. This courageous act not only won Mr. Haines the respect of this entire community, but it provides a basis of comparison between the principles of Mr. Haines and his opponent, Mr. Charles Daley.

At a time when the very principles of democracy were threatened, Mr. Haines resigned his seat in the Ontario legislature in protest. Mr. Daley on the other hand was rebuked editorially by The St. Catharines Standard of Aug. 23, 1941, as follows: "As mayor, he should above all be imbued with the necessity for a cleanup and should have been found behind the man who had the courage of his convictions and resigned his post thus making himself persona grata with the powers that be. In his interview, the mayor said that a strong stand by Mr. Haines in the first place would have stopped the license issue, but the records do not support this charge whatever. Mr. Haines gave his word and he kept it. The criticism of the Mayor for that attitude has even suggested to some that Mayor Daley is inclined on his issue, to run with the hare and hunt with the hounds."

Mr. Hepburn is no longer leader of the Liberal party in Ontario. He has been replaced by Hon. Harry C. Nixon, who with Mr. Haines shares a keen sense of appreciation for Democratic principles. In calling a general election, Mr. Nixon's attitude has been consistent. He resigned the Government last fall because he felt that the Premiership should not be handed about without some expression of the popular will. He waited until his name for leadership of the party was endorsed overwhelmingly by a great convention before he accepted the premiership. His next step was to say that as soon as possible, being the leader of a new Government, he wished to trust the people and to seek their confidence at the polls.

Furthermore, there were ten vacant seats in the Legislature (over 10%). This means that 300,000 Ontario citizens, including the voters of Lincoln County,

had no voice in the government. To call by-elections in those ten seats would have been quite as disturbing as a General Election, and would not have given all of Ontario an opportunity to express their opinion of Mr. Nixon's Government.

The citizens of Lincoln surely have nothing to fear in placing their trust in these two great believers in the right of every citizen to express his or her own opinion. Mr. Haines and his leader, the Hon. Mr. Nixon, have not only clung tenaciously to their democratic ideal and principles, but they bring you a background of achievements by Liberal Government which merits the endorsement of every voter.

## FRUIT AND VEGETABLE PRICES IMPROVED BY FARM PRODUCTS CONTROL ACT

Liberal Government in Ontario enacted the Farm Products Control Act which provides for cooperative bargaining in the sale of many farm products. Improved prices have resulted for peach, plum, pear, cherry, asparagus, tomato, strawberry and raspberry growers.

## RURAL HYDRO RATES REDUCED

Liberal Government in Ontario has reduced rural Hydro rates by \$1,250,000.00 per year. It has doubled rural Hydro lines and has bonused them by \$10,400,000.00.

## ELIMINATION OF GAS TAX REBATE NUISANCE

Gasoline can now be purchased for agricultural use in Ontario without the need to apply for tax rebates.

## OTHER IMPORTANT AGRICULTURAL LEGISLATION

Ontario Liberal Government established bonuses of 50 cents and \$1.00 per head for B-1 and A hog carcasses. It is bonusing the production of cheese, clean wool, Western feed grains and sugar beets. It has reduced interest on farm loans from 5% to 4%; interest on Drainage Loans from 5% to 3%. It has encouraged farm co-operatives including cold storage plants.

## LIBERALS WILL FOLLOW VIGOROUS AGRICULTURAL POLICY

Such a vigorous agricultural policy will always be the Liberal policy. Farmers of Lincoln County can depend on Archie Haines and the Liberal Government for sound, progressive administration of agricultural affairs.

# Give HAINES the Reins and Keep NIXON at the Wheel RE-ELECT HAINES (LIBERAL) AUGUST 4th

The five battleships lost by the Royal Navy during the war have been replaced by mighty 35,000 ton battleships. Though over 80 destroyers have been lost in action, more than double this number have been built to replace them. When the war began, Britain had six aircraft carriers. After three years of war, only J.M.S. Furious survived; but when American troops landed in North Africa, there were several Royal Navy carriers present.

The Royal Navy's motto is "Seek, engage and destroy". By June, 1942, 6,178,681 tons of the 11,000,000 tons of Axis merchant shipping had been destroyed, captured or put out of action by the Royal Navy and the R.A.F. In addition, the Royal Navy had sunk 3 Axis (German and Italian) battleships, 15 cruisers, 62 destroyers, and in conjunction with the Royal Canadian and United States Navies, sunk or damaged 550 submarines.

British submarines, alone, have sunk more than 300 enemy supply ships, including many troop ships, and have damaged many more.

From the Forest Commission's forests in Norfolk and Suffolk, England, 15,279,000 lineal feet of pitwood, 755,609 cubic feet of conifers, 246,000 cubic feet of hardwood and 6,000,000 lineal feet of timber for Army, Air Force and agricultural requirements have been produced since the outbreak of war.

With the opening of the "Battle for Europe", the task of the Royal Navy is staggering. It is a pleasant fact that today, despite casualties, it has more ships than it had when the war began. Thanks to the tremendous speed-up of Britain's shipyards, which built 600 warships during the first three and a half years of the war; And these shipyards are working at an increased tempo this year.

Winter is that cold when a man contracts a cold and keeps one until spring.

## Jail Terms Given Fruit Thieves

Magistrate Campbell Warns  
That He Will Deal Severely  
With All Pilferers of Fruit.

(St. Catharines Standard)

Although he would have been \$82 to the good if he paid his fine and worked for the next two weeks, Steve Romanchuk, 16, of Port Weller, Monday elected to go to jail for 15 days. Romanchuk pleaded guilty to stealing sweet cherries from the farm of W. C. Nickerson, Niagara Street Highway, on July 9th, and was fined \$13, or 15 days in jail. He said that he draws down \$95 every two weeks working in a St. Catharines war factory.

He told the court that he thought he would give the jail fare "a try" and "would take my punishment."

George Haggerty, 16, also of Port Weller, pleaded guilty to a similar charge, and also took the jail term. He told the court that he makes \$16 a week.

Magistrate J. H. Campbell, in passing sentence, warned that he would deal severely with persons guilty of stealing fruit. He noted that fruit crops in this district are light this year and the farmer needs all his fruit to make a living. He is forced to leave the fruit on the trees longer than usual because of the labor shortage, and thieves who take advantage of his plight will be shown no mercy by the court, he warned. This was the first fruit theft case heard here this year. The charge was preferred by Provincial Constable F. Cooney.

Up to the present time more than \$37,000 has been sent to British Scouts by the Scouts and Cubs of Canada.

### SCOUT WINS FLYING BOOT

Ft. Sgt. Dalrymple Ward, former Boy Scout of Cupar, Sask., has been decorated with the "Flying Boot", an award given to airmen who have to bail out of their planes over enemy territory and who find their way safely back to their own lines. Ward, shot down in Lybia travelled through enemy territory for five days and six nights to return to his base.

### BURN VOID COUPONS

Ration coupons which have expired should be burned or otherwise destroyed. It is emphasized by the Ration Administration of the Wartime Prices and Trade Board. They should never be turned over to the retailers as they do not represent sales made by him. In the hands of the grocer or butcher, void coupons become expendable for the purchase of replacement stocks, thus upsetting the mechanics of the rationing scheme.

### BIG CLOTH SAVING BY CUFFLESS PANTS

Elimination of the "rent pleats" and the "stuff cuffs" from men's trousers has saved many hundreds of thousands of yards of cloth and thus made available many suits which could not otherwise have been manufactured. This news was given to the retail clothing trade by Horace R. Cohen, administrator of fine clothing, W.P.T.B. at a recent meeting in Toronto. He said he believed the changes and eliminations had resulted in the greatest good for the greatest number of men.

Judging from the number of marriages, cupid is working on more than a 40-hour week.

## Western Feed For Lincoln Farmers

Many Lincoln County farmers, looking forward to the winter feeding season, have ordered carloads of feed grain from western Canada through the Department of Agriculture.

This is announced in the weekly reports on crop conditions issued by the Ontario Department of Agriculture on the basis of surveys by its county representatives.

The report for Lincoln this week is: The supply of whole milk for the local milk trade is keeping up exceptionally well. Early hatched pullets are now beginning to lay. The demand for dressed poultry is keen with broilers retailing from 45 to 50 cents a pound on the St. Catharines market. Eggs are firm and are retailing as high as 50 cents for Grade "A" large. There is a continued demand for young pigs at \$15.00 a pair. A great many farmers are putting in orders for carloads of feed grain from the West.
